Dear Patients,

It is with mixed emotions that I want to share news with you. After over 40 years of practicing obstetrics and gynecology, I will be retiring. Thank you for entrusting me with your health care needs over the years. Every day I came to work excited to see you and help with your needs. We have shared both happy and sad times. I hope I have supported you as you have supported me.

For everything there is a season and now is the time for the transition. Please wish me well as I step back from medicine to spend time with other interests – family, travel, and volunteer work. Thank you for the privilege of being your doctor. I leave you in the good hands of my partners at Associates in Women's Healthcare.

Sincerely,

Linda Mohr, MD
